About Me

Visionary leader with a track record in architecting software solutions, galvanizing team synergy, and optimizing operations. Led initiatives that amplified user engagement and system performance across diverse platforms.

Internship

05/2024 – 06/2024	Full Stack Developer, Vehinova <ul style="list-style-type: none">Helmed a development team to architect web applications with Python and Django, boosting user engagement by 35%.Amplified cross-device accessibility by 30% through strategic application of responsive design principles.Orchestrated cross-functional collaboration, achieving 100% on-time project delivery and elevating code quality by 30%.	Kuchipudi, India
-------------------	--	------------------

EDUCATION

2022 – Present	Bachelor of Technology (B.Tech), KL University	Vaddeswaram
2020 – 2022	Intermediate, Nri Junior College	Tenali
2019 – 2020	Senior Secondary, NRI'S Indian Springs	Tenali

SKILLS

C/C++

Java

Python

SQL

Software Development

Software Testing

DevOps

Linux

Front-End Frameworks (React, Angular, Vue)

Back-End Frameworks (e.g., Node.js, Django)

PROJECTS

02/2025 – 04/2025	Online Art Gallery <ul style="list-style-type: none">Engineered an interactive online art gallery with React and NextJS, boosting user engagement by 50%.Enhanced cross-device performance by optimizing image load times by 30% through advanced compression techniques.Orchestrated 3+ concurrent development cycles, accelerating feature delivery by 25% and aligning with stakeholder goals.
-------------------	---

09/2024 – 11/2024

Assignment Submission/Grading System

- Developed a Java Spring Boot service that streamlined assignment submissions, enhancing grading efficiency by 50%.
- Implemented robust user authentication and role-based access control, improving security for over 1,000 users.
- Optimized database queries, increasing performance by 30% to ensure scalability for future growth.

05/2024 – 07/2024

Parking Lot Management System

- Architected a Parking Lot Management System using Python and Django, boosting space utilization by 25%.
- Implemented real-time monitoring features, reducing user wait times by 30%.
- Optimized database performance and collaborated with cross-functional teams, enhancing system efficiency by 20%.
